Parents Stop Disabled Child's Growth

San Diego, CA

The parents of a severely disabled girl who was treated with hormones to inhibit her growth and underwent surgery to remove her uterus, appendix and breast tissue, have recently come out with their story as a response to the outrage the procedures have caused.

Concrete Deck Ramps

The Concrete Deck Ramp System (CDR Series) from Handi-Ramp® will make your modular class rooms or offices ADA compliant. These tough, durable ramp systems look and feel permanent, but they are modular and can be relocated. We build these systems using a heavy duty steel tube frame and a concrete panel surface. This ramp system has the look and feel of a poured concrete ramp. However, the cost is substantially less than poured concrete and this system is much simpler to install. Call Handi-Ramp today to learn more (800) 876.7267

Portable Ramps

Handi-Ramp's Portable Ramp Series includes a variety of single fold and non-folding ramps designed to be easily transported and stored. These ramps are available in lengths ranging from 5 feet to 12 feet with a standard width of 30 inches. All of our portable ramps have a weight capacity of 750 pounds, making them the sturdiest and easiest to use of the portable ramps on the market today. Ramps can be fabricated from aluminum or steel. Custom sizes and configurations are available. Call (800) 876.RAMP (7267)

Realtor:
Jacqueline
McCroy Elbert

If you ask me why it is that I am so impassioned about working with individuals and/or families with special needs I would answer in one word, "David". My best friend and husband, David, has been in a wheelchair since 1988 when a blood clot in his spine left him paralyzed. We met and became fast friends in 1998, then married in 2000. Over the past nine years we have done much work on our house...not only to update it, but to make it a more workable home for David.

When you stop and look at all the homes available, finding a home that is universally-designed for wheelchair accessibility can be very difficult. As life would have it, more and more of my clients are individuals or families who have special needs. So now I specialize in working with individuals and families when finding an accessible home, making recommendations on modifications, acting as a liaison with builders, or selling your current home.

I've been a resident in the metro Kansas City area since 1968 and licensed Realtor (in both Kansas and Missouri) since 1990. My goal is to assist Buyers and Sellers in meeting their real estate needs through creating trust and an ongoing relationship.

If you or a family member has mobility limitations or are physically disabled and are considering buying or selling a home or would just like to have additional information about real estate in your area, please give me a call (913.647.7162), e-mail me (<http://mailto:ForSale@JacquelineElbert.net>) or visit either of my websites www.JacquelineElbert.com or www.RealEstateForSpecialNeeds.com.

Home Access Program News

Recently we've made some changes to the Home Access Program website including a new enhanced navigation. Be sure to visit us on-line to experience all the new added features and resources including:

Mortgage Partnership with Countrywide Home Loans

Built into the Home Access Program is a unique mortgage partnership with Countrywide Home Loans. Individuals and families are able to roll the cost of modifications into a new mortgage. The program also features a reverse mortgage program which allows you to take out a new mortgage for home modifications if the existing mortgage has been paid in full. Countrywide is a national firm that can assist with mortgages in all 50 states. Please contact Nathan Gleason at Countrywide Home Loans for more information:

Database of Centers for Independent Living Nationwide

The Home Access Program website now features a database of nationwide Centers for Independent Living. They provide services and advocacy by and for persons with all types of disabilities.

Bulletin Board / Blog

Coming Soon! Place for members to post their news and upcoming events. Also a forum for discussing any topics related to accessible housing, disabilities, and related topics.

Accessible Home Listings

Database of accessible home listings nationwide. Searchable by state. Realtors post your listings on this page for added exposure. Send your listing to jyakapovich@handiramp.com.

The Home Access Program is growing but we need your help. Please tell any friends, family or business contacts you know about the program.

Fun Facts

~ About 1/3 of American adults are at least 20% above their recommended weight.

~ Sneeze travels out of your mouth at over 100 miles (161 km) an hour.

~ The longest living cells in the body are brain cells which can live an entire lifetime.
